

Handwashing guidelines for employees harvesting and packing produce

Wash your hands thoroughly with soap and water. Dry your hands using single service towels.

Times when you **must** wash your hands:

- > Before starting work
- > Before putting on gloves
- > After using the toilet
- > Upon return to the work station after breaks and other absences
- > As soon as practical after touching animals or animal waste
- > At any other time workers hands may have become contaminated

If supplies are out please notify a supervisor.
